Hi Jan,

I've attached my comments on the pilot study report. As you mentioned, I've made a number of comments; many of them do not need to be addressed in the changes, but I you told me that you wanted to see all of my comments.

One general comment: There needs to be more cross references built into the presentations. When statements are made or data are presented, the source should be referenced.

Let me know if and when you'd like to get together to discuss this.

Best regards,

Pat
